Scientific Advisory Committees (SAC) Summary of recent activities

This document summarises the recent activity of the FSA's Scientific Advisory Committees (SACs). We highlight topics discussed at the most recent meeting and agenda items for the next meeting.

Science Council

Updated: 7 February 2024

Last open meeting: 8 December 2022

Summary

- The Chair presented a summary of her activity over the last 6 months.
- The FSA led a discussion of the FSA Science Update 2022 (FSA 22/12/07) to the FSA Board.
- The CSA updated the Council on his recent activity and discussions (including Government Office of Science's review of SACs, changing FSA priorities this year, the Precision Breeding Bill).
- Updates from Science Council members attending Scientific Advisory Committees (SACs) and a proposed streamlining of members' engagement.

18 May 2023 – Science Council published the final report of its Working Group 6 "[Food Safety in the Net Zero Era](#)".

Next open meeting: 15 March 2024

Interim Chair: Professor John O'Brien

Secretariat: sciencecouncil@food.gov.uk

Advisory Committee for Social Science (ACSS)

Updated: March 2024

Last meeting: 27th February 2024 (12th plenary, open session). Minutes and papers are available on the [website](#). Key discussion items included: how best to maximise academic engagement with FSA research, horizon scanning, and research questions around consumer knowledge and practises related to ultra processed foods.

Four working groups are currently active, supporting the development of a range of research activity, from the evidence behind the 2024/25 Spending Review business case, to a rapid evidence assessment outlining the

available evidence around consumer knowledge, beliefs s and practises around UPFs.

The next open meeting (13th Plenary) of the ACSS will be a hybrid meeting in July 2024.

Advisory Committee on Novel Foods and Processes (ACNFP)

Updated: 2nd May 2024

Last meeting 164th: 17th April 2024

- Successful meeting. 9 Committee Advice Documents (2x CBD, 2x GM, 3x oligosaccharides, Olive oil dry extract standardized in hydroxytyrosol and vit D2 mushroom powder) that have previously been discussed were reviewed all requiring little refinement and some requiring further information from the applicant. Once resolved, the CADS will be finalised via Chair's action.
- The Committee received an update on the work of the science teams and Secretariat to support the development of the policy for precision breed organisms and its implementation.

Next meeting: 12th June 2024 (hybrid)

ACNFP Precision Breeding Workshop: 1st May 2024

- Successful meeting. The Committee peer reviewed a FSA-owned draft PB technical guidance by correspondence prior to the meeting, and discussed remaining technical difficulties identified by the Secretariat. Technical advice will be used to inform revisions, the accuracy of which will be cleared by Chair's action.

PGT Subcommittee

Updated: 19th March 2024

Last PGT meeting: 8th March 2024

Highlight: Minutes of PGT12 to be amended; first reviewing of the new full GM application RP1868 and its draft Committee Advice Documents; requests for further information to be sent to applicant. Reviewing of the expertise needed to ensure statistical analysis part of the comparative analysis in GMO assessments is conducted properly; identification of the additional expertise not on PGT membership needed to assess GMOs with altered nutrition. Further discussion on GM applications was held.

Next meeting (PGT14): 15th May 2024

CBD Subgroup

Updated: 9th February 2024

Last CBD meeting: 1st February 2024

Highlight: The Subgroup held its first in person meeting. Members were asked to approach the analytical data, group B assessment approaches and THC

contaminant actions from November and feeding back their opinions during this meeting. Members were provided with a workshop and presentation from the chemical analysis team and COT Secretariat.

The lead secretariats have begun to develop and create a live database for the plotting of relevant CBD NOAELS and the appropriate endpoints, to assess the presence of current data gaps.

Next main meeting: 22nd May 2024 (CBD10 – Topic TBC).
