Bio

Professor Mireille Toledano was appointed to the Committee on 1st April 2018. She is Professor of Perinatal and Paediatric Epidemiology at Imperial College London and is an investigator of the MRC-PHE Centre for Environment and Health, specialising in environmental epidemiology. As an academic public health scientist working in the UK's top ranked School of Public Health (in the latest RAE/REF exercise), she has devoted her professional life to conducting epidemiological research and risk assessment focusing on environmental chemicals and sources of pollution, with the goal of improving public health. She is a member of a number of other UK and international advisory committees. Professor Toledano is a reader in epidemiology at Imperial College London and an investigator of the MRC-PHE Centre for Environment and Health specialising in environmental epidemiology. As an academic public health scientist working in the UK's top ranked School of Public Health (in the latest RAE/REF exercise) for more than a decade, she has devoted her professional life to conducting objective and impartial epidemiological research with the goal of improving public health.

Professor Toledano's appointment expires on 31st March 2024.
