Contents

Annex A	13
Discussion paper on novel formulations of supplement compounds designed to increase oral bioavailability	13

Novel formulations of supplement compounds	14
Lipid based delivery systems	14
Background and overview	14
Emulsions	18
Micelles	20
Liposomes	20
Lipid nanoparticles	22
Mechanisms of enhanced bioavailability in lipid based delivery systems	27
Other systems to increase bioavailability	35
Uncertainties surrounding novel supplement formulations	37
Market data and projected trends	39
Case studies of supplement formulations with increased bioavailability	42
Case study 1: Liposomal vitamin C	42
Case study 2: Curcuminoids	47
Review by Jamwal, 2018	47
Other studies	50

Case study 3: Cannabidiol	59
Background	
Studies investigating the oral pharmacokinetics of CBD formulations	60
Toxicology studies with novel supplement formulations	65
Curcumin	67
Summary and discussion	68
Questions for the Committee	70
Abbreviations and glossary	72
Abbreviations	72
Glossary	74
References	77
Appendix A: Literature search for specific toxicology studies with novel supplement formulations	94
