Bioavailable Formulations - Science and Research Special Topics Report

Novel Formulations of Supplement Compounds Designed to Increase Oral Bioavailability front cover page. At the top there is a bright blue horizontal band. Below is the page header and the COT logo. Below this is the committee name

and title of the report. Below that text is the image of a schematic diagram of several lipid-based supplement formulations, including liposomes, micelles, emulsions, and lipid nanoparticles. Underneath is the page footer and a final horizontal band of blue.
