Updated: April 2022.

Last meeting: 30 March 2022.

The Chair and Secretariat were involved in new members recruitment prior to the meeting. Minutes for the 151th meeting were agreed.

- Dossiers on Barley Protein and on Cetylated fatty acids were removed from the agenda, to be presented in the following meeting instead; these are the first novel food dossiers to reach the stage of initial draft opinion in the new UK assessment process, requiring careful consideration of the approach and detail levels.

- One traditional food dossier on Bambara Ground Nut was assessed; there were further considerations of what is not requested from the guideline while necessary for risk assessment, and what would be considered as reasoned safety objections.
