COC Horizon Scanning 2021

In this guide

In this guide

- 1. About the Committees
- 2. <u>Committee on the Toxicity of Chemicals in Food, Consumer Products and the</u> Environment -Preface 2021
- 3. COT Evaluations 2021
- 4. Updated COT Evaluations 2021
- 5. Committee Procedures
- 6. COT Ongoing Work 2021
- 7. COT Working Groups 2021
- 8. 2021 Membership of the Committee on Toxicity of Chemicals in Food, Consumer Products and the Environment
- 9. Declaration of COT members interests during the period of this report- 2021
- Committee on Mutagenicity of Chemicals in Food, Consumer Products and the Environment-Preface 2021
- 11. COM Ongoing Work 2021
- 12. COM Evaluations 2021
- 13. COM Horizon Scanning 2021
- 14. 2021 Membership of the Committee on Mutagenicity of Chemicals in Food, Consumer Products and the Environment
- 15. Declaration of COM members interests during the period of this report 2021
- 16. <u>Committee on the Carcinogenicity of Chemicals in Food, Consumer Products</u> and the Environment Preface 2021
- 17. COC Evaluations 2021
- 18. COC Joint Ongoing Topics 2021
- 19. COC Horizon Scanning 2021
- 20. COC Working Groups 2021
- 21. COC Guidance Statements 2021
- 22. 2021 Membership of the Committee on Carcinogenicity of Chemicals in Food, Consumer Products and the Environment
- 23. Declaration of COC members interests during the period of this report 2021
- 24. Annex 1 Terms of Reference

- 25. Annex 2 Code of Conduct for members of the COC/COM/COT
- 26. Annex 3 Openness
- 27. Annex 4 Good Practice Agreement for Scientific Advisory Committees
- 28. Annex 5 Glossary of Terms
- 29. Annex 7 Previous Publications
- 3.21 The COC undertakes horizon scanning exercises at regular intervals with the aim of identifying new and emerging issues which have potential to impact on public health.
- 3.22 At the end of discussion in 2021, it was agreed that the priority topics were:
 - Maintain a watching brief on factors affecting cancer susceptibility including shift work, stress and other lifestyle factors and how that might affect assessment of chemicals and carcinogenicity.
 - Consider an update to guidance on assessment of nanomaterials, possibly as a joint activity across COC, COM and COT.
 - Gain awareness of the potential effects of antibiotics and antivirals on the microbiome.
 - Consider a joint discussion with COM on thresholds for in vivo mutagens and whether there is new information subsequent to the 2010 COM opinion.
 - Endocrine disruption and the link with carcinogenicity, acknowledging that endocrine disruption is also within the COT remit.
 - Impact of chemicals on potential for metastasis or progression of cancer, in particular with respect to the tumour microenvironment.
 - Communication of cancer risk and how COC should be involved with this, especially with the move away from a yes/no decision on whether a substance is a carcinogen, and ensuring consistency in describing risks, possibly starting with a landscape review of terminology across a number of Committees (FSA and UKHSA) and led by Lay Members.
 - Ensuring appropriate considerations are made to acknowledging diversity in the population especially where there might be differences in risk between different groups.
- 3.23 The Committee continues to have a standing agenda item for each meeting on horizon scanning topics and to update the COC on upcoming topics for UK and international scientific advisory groups.
