

General

Professor Jeanette Rotchell

Image of Prof Jeanette Rotchell. In the photo Jeanette has long brown hair pulled back from her face. Jeanette is smiling and wears black plastic framed glasses, a silver pendant necklace and a puce coloured v necked jumper.

Bio

Professor Jeanette Rotchell has more than 20 year's experience in environmental toxicology and is currently at University of Lincoln.

Her research interests include the levels, fate and impacts of contaminants in various environments, foodstuffs and, most recently for microplastics, in the human body.
