Annex A - Statement on the risk assessment of cow's milk in children aged 6 months to 5 years, in the context of plant-based drinks evaluations

Background - Annex A

In this guide

In this guide

- 1. Background Annex A
- 2. Consumption data Annex A
- 3. Chemicals evaluated Annex A
- 4. References Annex A
- 1. The information presented in this annex should be read in conjunction with the main statement on the risk assessment of cow's milk in children aged 6 months to 5 years of age. The risk assessment of cow's milk was conducted to support the work of the SACN/COT plant-based drinks working group. This annex contains detailed supporting information for the evaluations where the COT concluded there was little or no concern.
