13. The workshop took place online on the 6th and 7th of October 2021 (Figure 2). It had worldwide participation with attendees from industry, academia, and regulatory agencies. The days were divided into different area sessions: Drivers vs Challenges: Formulate the Problem Space; The right data/the value of data; Adopters of change: Innovation vs Adoption vs Compatibility; From basic to Applied-Science & Technology: Distil, Review, Validate; Paving the way for the paradigm shift: The UK Roadmap. Each of the sessions had presentations followed by a roundtable discussion and included interactive sessions (Figure 3).
